

FlexJet+

The new standard in high pressure trailers

High pressure
jetting trailers

- Complete trailer with powerful pump
- Very noise damped
- Low air resistance due to modern design
- Stable road holding due to low point of gravity
- Hose reels and control box at ergonomic working height
- Maximum flexibility in usability

FlexJet+

Very noise damped

Once again Rioned has succeeded in setting a new standard in the drain cleaning market.

The FlexJet+ is a super compact trailer with powerful pump, suitable for professional unblocking and cleaning of drains and sewers up to 400 mm. The machine is suitable for professional cleaning companies, councils and water authorities.

The motor-pump compartment is nearly fully closed and supplied with flame retardant insulation material and a special cooling and exhaust system. Therefore the FlexJet+ is super noise damped. The cover can remain closed during operation and during transport the machine remains street dirt free.

Large tool box

Due to the streamlined and modern design the FlexJet+ has a low air resistance. Thanks to the use of high strength steel and synthetic material the total weight remains limited and because of the integrated water tank up to 500 litres water can be transported. On top of the water tank there is a large tool box with lockable cover. The innovative construction of the water tank gives a stable road holding both empty and full by preventing sway during driving. The FlexJet+ has very good visibility in the side mirror; very pleasant and practical when driving in reverse.

Full control

The hose reels are mounted at a perfect working height, for ultimate operational comfort. The operator has with the control box full control of the FlexJet+ at the back.

The trailer is very user friendly and is available in various pressure and flow capacities. Furthermore the trailer can be equipped with many options such as the FlexMote radio remote control and RioPulse pulsator system. Furthermore as the name already indicates this machine can be used flexibly and is very suitable for façade cleaning, drainage and surface cleaning.

Option: FlexMote

Technical details

Water tank	500 Liter		
Drive Capacity	B&S 18 hp petrol	Honda 20 hp petrol	Honda 24 hp petrol
	140 bar/40 lpm 2250 psi/9 gpm	150 bar/45 lpm 2100 psi/10 gpm	150 bar/55 lpm 2250 psi/12 gpm 140 bar/60 lpm 2100 psi/13 gmp
Pump	Rioned/Speck P30	Rioned/Speck P30	Rioned/Speck P41
Outfit	Manual high pressure hose reel with 60 m x NW 13 high pressure hose. Manual supply hose reel with 35 m supply hose NW19. Control box with ignition keys and control lights. 2 jet nozzles and 1 jetting gun with lance and flat spray nozzle.		
Weight	as from 330 kg		
Dimensions	3.070 x 1.375 x 1.320 mm
