For continuous availability

Invariably high quality standards are essential to ensure long-term reliability of cleaning machines. You can minimise the risk of downtimes even further by making the most of Hako's comprehensive services, for example our Hako-Maintenance-Agreement, which offers you customised service solutions to meet your individual requirements.

For your individual solutions

Since every requirement is different, and each application is special in its own right, Hako offers tailor-made solutions for every need. Our close-knit sales and service network of own branch offices and appointed dealers ensures customer proximity and guarantees individual support. Contact your local Hako Partner for free consultation. For more information please visit: www.hako.com

For brilliant results

Hako vacuum cleaners are the perfect solution for a wide range of cleaning situations. To perfect your cleaning results even further, why not follow up the vacuum process with carpet cleaning machines or single-disc and polishing machines made by Hako – economically efficient, user-friendly and maximum effective thanks to a wide range of additional floor care products available.
